Workspa and navigatic

Members
use the
Member
workspace
and can
access:

- **Overview**
- **Loans**
- **Loan
Security**
- **Loan
requests**
- **Settings**

Primary responsibilities

- Submit and track
loan requests
- View loan status
and summaries
- Manage account
profile and
contact details

Main pages and actions

Overview

- View profile summary,
account number, and
status
- See recent account
activity
- Review loan and savings
summaries

Loan Requests

- Track loan drafts and requests in progress
- Filter requests by status
- Open requests to see details and next steps
- Submit new loan requests using `Request loan`

Loans

- Review active loan records
- Access loan details and payment summaries

Loan Security

- View security or collateral information if available

Settings

- Update profile details
- Review account status
- Link membership if needed

Quick start

- Open **Overview** to confirm account status
- Open **Loan Requests** to see active and past applications
- Use **Request loan** to start a new application
- Open **Loans** to review current loan records
- Use **Settings** to update profile and contact info

Notes

- Member access requires a valid account number and member role.
- If a user has both member and staff access, the member portal remains separate from staff workflows.

Common interface guidance

Loan request statuses

The application uses workflow status labels such as:

- Draft
- Pending Processing
- In Processing
- Awaiting Member Correction
- Awaiting Member Information
- For Loan Manager Review
- Approved - For WIBS Processing

- Declined by Loan Manager
- Rejected During Processing
- Converted to Loan
- Cancelled

Legacy requests may show older labels such as `Legacy Submitted`.

Audit trail

- The audit trail shows workflow events and staff/member actions.
- For staff pages, the audit trail may appear in the main detail area or sidebar depending on the route.

Document access

- Approved documents appear on request details after approval
- Document download buttons are shown when documents are available

Appendix: support notes

Fixing missing member role data

If old registered users do not appear in the promotion search, the issue is usually missing `member` role entries in `user_roles`.

Recommended commands for deployed environments:

```
php artisan loan-workflow:seed-permissions
php artisan members:backfill-roles
```

Role definitions

- `Superadmin` — full staff management and audit access
- `Loan Processor` — loan review, revision, rejection, recommend approval
- `Loan Manager` — approve or decline processor recommendations
- `Member` — borrower portal access and loan request submission
